Case Name: JIMENEZ vs WIZEL
Case Number: 2011-21207 FC 29

September 13, 2012

To the Honorable Echarte,

Pursuant to a Court Order, the undersigned is in the process of completing the court ordered psychological evaluations with both parents. To date, both parents have been extremely cooperative, but it is anticipated that at least a couple more weeks will be necessary before a report is available to the Court due to the vast amount of background information that needs to be thoroughly reviewed.

As part of the evaluation process, the recordings of the telephone calls between the father and the children have been provided for review. The undersigned is markedly concerned by some of the recordings where past allegations are being discussed (usually at the initiation of the children), frequent and repeated religious citations are being made (usually initiated by the father), and other inappropriate statements are occurring on a regular basis. On several occasions, the children have become distressed.

The undersigned is recommending that the telephone calls be immediately suspended, and that the father and children begin to have visits under the supervision of a mental health professional who will be available to intervene as soon as any inappropriate or concerning statements are made.

Thank you for calling on me.
